

Intelligent Personal Tracker

Honored with 2010 Taiwan Excellence Award
Your must-own personal security guard.

TAIWAN
EXCELLENCE 2010

Modern and simple design

With IP65 Certification, the Intelligent Personal Tracker can be used in raining or dust region.

TRUBEARING

Design with simple three buttons for easy operation.

Emergency Button

You can lightly press the Emergency Button to find your location, and a short message will be sent to the defined contact persons.

Emergency Button

TRUBEARING

Geo-fencing Button

The Self-geofence function allows people to remotely track and protect their children, elderly or important assets. Once the elderly or children who need special guard go beyond a designated area, a notification is generated.

TRUBEARING

Easily track through short messages of mobile phones. No need to access Internet to get the location information.

TRUBEARING

Rescue Assistance

The tracker carrier can lightly press the Emergency Button to enable the function of emergency calls, and then a short message with a location map will be sent to the defined contact persons. This can make rescue quicker and easier.

TRUBEARING

Easy to Install and Hide

No need to install the tracker.
Compact size design for easy hiding.
